

CAE Global 6500 Pilot Training

Background

Since March 2019, CAE has been the Authorized Training Provider (ATP) for Bombardier's Global 6500 pilot training solutions worldwide.

CAE is the only simulation and flight training services provider capable of delivering FAA-Part 61/142-certified training courses and the sole simulation manufacturer with an FAA Level D certified Full Flight Simulator (FFS) currently in production.

CAE delivers Global 6500 pilot training at three premier locations: The CAE Montreal Training Centre in Canada, Emirates-CAE Flight Training (ECFT) in Dubai, United Arab Emirates, and the CAE Dothan Training Center (DTC) in Dothan, Alabama.

CAE Dothan Training Center

At the CAE DTC, CAE provides a contractor-owned, contractor-operated Global 6500 training solution in support of the U.S. Army Intelligence and Security Command (INSCOM).

Our Courses

Since the Global 6500 product was released in October 2024, CAE has offered the following Federal Aviation Regulation (FAR) Part 61/142-certified training courses:

- › Global 6500 Initial Qualification Course (U.S. Army)
- › Global 6500 Recurrent Training (FAA)
- › Global 6000 to 6500 Differences Training (FAA)
- › Global 6500 to 6000 Reverse Differences Training (FAA)

The CAE DTC also provides the following customer-specific courses and training:

- › CAE Global 6500 Instructor Operator Station (IOS) Course
- › U.S. Army Phase 0 Global 6500 Prerequisite Course
- › Wet Simulator Time
