

Boeing, CAE agree to enhance P-8 training solutions for Canada, Germany, and Norway

- Teaming agreements to boost mission readiness across the three countries
- Collaboration amplifies a long-standing relationship spanning commercial and defence portfolio across the globe

OTTAWA, April 4, 2023 – Boeing [NYSE: BA] and CAE [NYSE: CAE; TSX: CAE] signed teaming agreements to expand multi-mission platform collaboration in Canada, Germany and Norway. These agreements utilize the complementary capabilities of each company to provide superior management, technical and cost-effective training solutions for the P-8A Poseidon program.

“These agreements aim to advance mission readiness for defence customers operating Boeing P-8 aircraft,” said Torbjorn Sjogren, Boeing vice president and general manager, Government Services. “Working together, Boeing and CAE can deliver outcome-based pilot and aircrew training, maintenance ground school, in-service support, and instructor training at the point of need.”

As a member of Team Poseidon in Boeing’s Canadian Multi-Mission Aircraft (CMMA) offering, CAE is part of a Canadian P-8 industrial footprint that builds on 81 Canadian partners on the platform.

“Mission success depends on advanced preparation and rapid response,” says Daniel Gelston, CAE Defense & Security president. “As a premier provider in flight training and simulation, we leverage collaboration to create an agile network of proven training, simulation and in-service support solutions to deliver critical readiness for defence forces worldwide.”

This collaboration amplifies a long-standing relationship spanning commercial and defence portfolios across the globe. For more than a decade, CAE has delivered operational flight trainers on the Boeing P-8A platform supporting the U.S. Navy, Royal New Zealand Air Force and United Kingdom Royal Air Force.

About CAE

At CAE, we equip people in critical roles with the expertise and solutions to create a safer world. As a technology company, we digitalize the physical world, deploying simulation training and critical operations support solutions. Above all else, we empower pilots, airlines, defence and security forces, and healthcare practitioners to perform at their best every day and when the stakes are the highest. Around the globe, we’re everywhere customers need us to be with more than 13,000 employees in more than 200 sites and training locations in over 40 countries. CAE represents 75 years of industry firsts—the highest-fidelity flight, mission, and medical simulators, and personalized training programs powered by artificial intelligence. We’re investing our time and resources into building the next generation of cutting-edge, digitally immersive training and critical operations solutions while keeping positive environmental, social and governance (ESG) impact at the core of our mission. Today and tomorrow, we’ll make sure our customers are ready for the moments that matter.
