

## AIR BUSAN signs up for CAE's AI-powered training system

- AIR BUSAN becomes first customer of CAE Rise™ in Korea
- AIR BUSAN leveraging big data from CAE Rise™ Training System to enhance pilot training

**Singapore, February 17, 2022** (NYSE: CAE; TSX: CAE) – CAE announced today at the 2022 Singapore Airshow that AIR BUSAN has now successfully launched CAE Rise™ for its flight training operations. This makes AIR BUSAN the first airline in Korea to leverage CAE's innovative training system based on big data.

"This agreement is the next step in increasing AIR BUSAN's safety index through world-class training and advanced technology," said Jung Chang Jae, AIR BUSAN's Vice President, Operation Division "By leveraging big data, AIR BUSAN will now be able to ensure the highest flight training standards to train its pilots. Through CAE Rise™, pilot reaction times, such as brake application timing during a landing procedure, can be monitored and evaluated to improve flight training quality."

"AIR BUSAN and CAE share a longstanding partnership that spans almost a decade and we are thrilled to expand the CAE Rise™ training system to their Airbus A320 fleet," said Nick Leontidis, CAE's Group President Civil Aviation. "With CAE Rise™, AIR BUSAN can now harness the power of big data analytics to train the safest pilots, while leveraging insights to continuously adapt and improve AIR BUSAN's flight training programs."

CAE Rise™, real-time insights and standardized evaluations, is a data-driven training system that monitors select flight manoeuvres and procedures performed by pilots to provide metrics-based insights (MBI) to instructors during a real time simulator training event. Furthermore, the quality of instructor and pilot de-briefing session is improved due to access to objective data.

The partnership between AIR BUSAN and CAE dates to 2013. Since then, AIR BUSAN has trained exclusively at CAE's Training Centre in Korea.

### **About AIR BUSAN**

Established in 2007, AIR BUSAN is South Korea's third-largest low-cost airline carrying both domestic and international passengers. The airline is based in Gangseo-gu, Busan, South Korea and is a subsidiary of Asiana Airlines. Asiana Airlines and CAE share a long-standing relationship of more than 20 years, with the provision of training equipment and services as well as aviation recruitment services.

### **About CAE**

CAE is a high technology company, at the leading edge of digital immersion, providing solutions to make the world a safer place. Backed by a record of more than 70 years of industry firsts, we continue to reimagine the customer experience and revolutionize training and operational support solutions in civil aviation, defence and security, and healthcare. We are the partner of choice to customers worldwide who operate in complex, high-stakes and largely regulated environments, where successful outcomes are critical. As testament to our customers' ongoing needs for our solutions, over 60 percent of CAE's revenue is recurring in nature. We have the broadest global presence in our industry, with more than 11,000 employees, 180 sites, and training locations in over 35 countries. [www.cae.com](http://www.cae.com)
