CAE 3000 Series S-92 full-flight simulator at CAE Brunei MPTC now ready-for-training

Montreal, Canada, July 9, 2014 – (NYSE: CAE; TSX: CAE) – The CAE Brunei Multi-Purpose Training Centre (MPTC), a joint venture of CAE and the Ministry of Finance of Brunei Darussalam, today announced that its new CAE 3000 Series S-92 full-flight simulator (FFS) was certified by the European Aviation Safety Authority (EASA) to Level D, the highest qualification for flight simulators, and is now ready-for-training.

“This represents yet another significant milestone in the development of the CAE Brunei Multi-Purpose Training Centre and we are pleased to make S-92 training services available to customers in the region to support safe operations and crew readiness,” said Kevin Speed, Vice President – Asia, Defence & Security, CAE and Director of the CAE Brunei MPTC.

The CAE 3000 Series helicopter mission simulator features unprecedented realism for helicopter-specific mission training, including offshore oil and gas, Search and Rescue (SAR), and other types of operations. The simulator enables pilots to practice -- without risk -- challenging procedures such as low-level flight, confined area operations, autorotation and landing on platforms at sea.

The CAE 3000 Series S-92 FFS features core CAE simulation technologies including the CAE True six Degree-of-Freedom (DOF) electric motion system and high-performance vibration platform to replicate vibration cues critical to helicopter pilots; a high-fidelity CAE Medallion-6000 image generator; and a direct projection 210 degree by 80 degree extreme field-of-view dome display system.

The CAE Brunei MPTC facility in Rimba, Brunei Darussalam will be continuing to introduce new training programs over the next year in addition to S-92 training. The CAE Brunei MPTC will also offer flight-training services for S-70i Black Hawk and PC-7 trainer aircraft where the training emphasis will be on safety and mission readiness. In addition, the CAE Brunei MPTC is establishing a comprehensive Emergency Management and Crisis Management Centre of Excellence that will support disaster preparedness for Brunei and other Association of Southeast Asia Nations (ASEAN).

About CAE

CAE is a global leader in providing comprehensive training solutions based on world-leading simulation technology and integrated training services. The company employs 8,000 people at more than 160 sites and training locations in 35 countries. Our vision is to be our customers' Partner of Choice and we take a long-term approach to customer relationships. We offer our civil aviation and defence and security customers a complete range of highly innovative product, service and training centre solutions designed to help them meet their mission critical needs for safety, efficiency and readiness. We provide similar solutions to customers in healthcare and mining. CAE has the largest installed base of civil and military flight simulators, supported by a range of after-sales services, and has been serving the needs of its customers for nearly 70 years. We have the broadest training services network in the world and offer civil aviation, military and helicopter training services in 67 locations worldwide and train more than 120,000 civil and military crewmembers annually. www.cae.com
