CAE Brunei Multi-Purpose Training Centre certified by EASA as Approved Training Organisation

Brunei Darussalam, October 13 2015 – (NYSE: CAE; TSX: CAE) – The CAE Brunei Multi-Purpose Training Centre (MPTC), a joint venture of CAE and the Ministry of Finance of Brunei Darussalam, today announced that the European Aviation Safety Agency (EASA) has formally certified the CAE Brunei MPTC as an Approved Training Organisation (ATO).

The CAE Brunei MPTC was certified under the ATO held by CAE's Oslo Training Centre in Norway. By leveraging CAE's existing S-92 training curriculum and standards, the CAE Brunei MPTC was able to accelerate its certification as an ATO.

Beginning in 2016, the CAE Brunei MPTC will have the capability to deliver EASA-approved training, including instructor-led ("wet") initial and recurrent training, for the Sikorsky S-92 helicopter. The S-92 "wet" training solution offered at the CAE Brunei MPTC includes academic classroom training in addition to S-92 simulator training on a CAE 3000 Series S-92 full-flight simulator (FFS). The CAE Brunei MPTC also offers operator-led "dry" training on the S-92 FFS.

"Being able to offer customers the ability to bring their own instructors for dry lease training, or have our own qualified instructors deliver S-92 training, means we can offer our offshore oil and gas customers very flexible training options," said Kevin Speed, General Manager, CAE Brunei MPTC. "We are very pleased EASA has certified our S-92 training, which offers further evidence that we have established a truly world-class training centre in Brunei."

In addition to S-92 helicopter training, the CAE Brunei MPTC offers a comprehensive training program for the Pilatus PC-7 training aircraft, including a CAE-built PC-7 flight training device. In 2016, the CAE Brunei MPTC will take delivery of a CAE 3000 Series S-70i Black Hawk helicopter simulator and begin offering a comprehensive training program for the Sikorsky S-70i Black Hawk.

The CAE Brunei MPTC is also establishing an Emergency and Crisis Management Centre of Excellence that will provide relevant local authorities with comprehensive training designed to better plan and prepare for emergencies. Using simulation-based training, the CAE Brunei MPTC will offer emergency and crisis management training programs that will help improve coordination, response and operational decision-making during a range of emergency scenarios. The CAE Brunei MPTC will also be offering emergency and crisis management training to the Association of Southeast Asia Nations (ASEAN).

About the CAE Brunei Multi-Purpose Training Centre (MPTC)

The CAE Brunei Multi-Purpose Training Centre (MPTC) in Brunei Darussalam was established in 2012 as a joint venture between CAE and the Government of Brunei. The development of the integrated training facility for the CAE Brunei MPTC was completed in 2014 and the facility officially started training in September 2014. The CAE Brunei MPTC, located in Rimba, Brunei, near the Brunei International Airport, is a world-class training facility that is staffed and operated

by Bruneians. The CAE Brunei MPTC plays a key role in further developing the defence, aviation and emergency/crisis management market segments in Brunei.

About CAE

CAE is a global leader in the delivery of training for the civil aviation, defence and security, and healthcare markets. We design and integrate the industry's most comprehensive training solutions, anchored by the knowledge and expertise of our 8,000 employees, our world-leading simulation technologies and a track record of service and technology innovation spanning seven decades. Our global presence is the broadest in the industry, with 160 sites and training locations in 35 countries, including our joint venture operations, and the world's largest installed base of flight simulators. Each year, we train more than 120,000 civil and defence crewmembers, as well as thousands of healthcare professionals. www.cae.com
