CAE Healthcare to provide a turnkey healthcare simulation center in Turkmenistan

Montreal, Canada, February 24, 2015 - CAE Healthcare announced today the details of a previously disclosed record contract to provide a turnkey healthcare simulation training center in Turkmenistan to advance medical education in pre- and post-graduate medicine, nursing and paramedic education. The center will be the first to offer multi-disciplinary medical simulation training in Turkmenistan.

“We are proud to have been chosen to provide the full scope of our capabilities as a healthcare training partner of choice,” said Dr. Robert Amyot, President of CAE Healthcare. “We are delivering a comprehensive solution that includes needs analysis, planning and design of the center, a full portfolio of simulation tools as well as clinical education to train faculty and full-time technicians on site.”

The sale includes 17 CAE healthcare patient, surgical and ultrasound simulators, a fully integrated audiovisual solutions system as well as training and technical support. CAE Healthcare is also providing non-CAE simulators, medical equipment, consumable supplies and furnishings.

The new educational center is being designed and built through an agreement with Gap Insaat and the Turkmenistan Ministry of Health, with CAE Healthcare acting as subcontractor of Gap Insaat for the Ilim Bilim Merkezi simulation center. The seven-story building will house a research center on three floors and the CAE Healthcare solution on four of the floors. The hands-on training center will include simulated emergency and intensive care rooms, operating rooms, standardized patient examination rooms, nursing laboratories, wet and dry laboratories for surgical education, a debriefing area and an ambulance bay.

About CAE Healthcare

CAE Healthcare offers cutting-edge learning tools to healthcare students and professionals, allowing them to develop practical experience through risk-free simulation training before treating real patients. CAE Healthcare’s full spectrum of simulation solutions includes surgical and imaging simulation, curriculum, the LearningSpace audiovisual and center management platform and highly realistic adult, pediatric and baby patient simulators. Today, approximately 9,000 CAE Healthcare simulators and audiovisual solutions are in use worldwide by medical schools, nursing schools, hospitals, defense forces and other entities. www.caehealthcare.com

About CAE (NYSE: CAE; TSX: CAE)

CAE is a global leader in providing comprehensive training solutions based on world-leading simulation technology and integrated training services. The company employs 8,000 people at more than 160 sites and training locations in 35 countries. Our vision is to be our customers' Partner of Choice and we take a long-term approach to customer

relationships. We offer our civil aviation and defense and security customers a complete range of highly innovative product, service and training center solutions designed to help them meet their mission critical needs for safety, efficiency and readiness. We provide similar solutions to customers in healthcare and mining.
