CAE Oxford Aviation Academy launches next phase of enrolment on easyJet Multi-Crew Pilot Licence First Officer Programme

Oxford, United Kingdom, April 16, 2014 – CAE Oxford Aviation Academy has launched the next phase of enrolment on the easyJet Multi-Crew Pilot Licence (MPL) First Officer Programme. A total of 24 cadets will be selected to commence MPL training for easyJet over the next 12 months. This is an opportunity for aspiring pilots to train under the mentorship of easyJet and go on to fly as First Officers on their Airbus A319/A320 fleet.

In 2011, easyJet selected CAE Oxford Aviation Academy as its exclusive launch partner for this innovative Mentored Airline Pilot Programme based upon the Multi-Crew Pilot Licence (MPL). Since that launch, 72 cadets have been selected and have commenced training for easyJet. Out of those 72 cadets, 41 have already completed their training at CAE Oxford Aviation Academy and have joined easyJet as A319/A320 First Officers.

The MPL programme provided by CAE Oxford Aviation Academy is just one of CAE's pilot training solutions for easyJet. In 2012, easyJet named CAE as a preferred training supplier in a 7-year contract covering a wide range of training, including MPL, Type Rating and Recurrent Training. Pilot Recruitment and Sourcing services are also provided through CAE Parc Aviation.

The online application for the next round of enrolment was opened at CAE Oxford Aviation Academy's open day on April 5. For more information on the easyJet MPL programme and how to apply, visit www.caeoaa.com/easyJet

About easyJet

easyJet operates Europe's No. 1 air transport network with a leading presence on Europe's top 100 routes and at Europe's 50 largest airports. easyJet carries more than 60 million passenger annually of which 11 million are travelling on business.

easyJet flies over 200 aircraft on more than 600 routes between over 130 airports in 30 countries. More than 300 million Europeans live within one hour's drive of an easyJet airport, more than any other airline.

The airline takes sustainability seriously. easyJet invests in the latest technology, operates efficiently and fills most of its seats which means that an easyJet passenger's carbon footprint is 22% less than a passenger on a traditional airline, flying the same aircraft on the same route.

About CAE Oxford Aviation Academy

CAE Oxford Aviation Academy is the largest ab initio flight training network in the world with the capacity to train more than 2,000 cadets per year across 10 flight schools on five continents. Drawing upon over

85 years of pilot training expertise, CAE Oxford Aviation Academy cadet pilot training programmes provide high quality, focused ab initio training to aspiring pilots across the globe. The range of programmes includes CPL, ATPL and MPL training routes, all of which combine premier ground school courses with high quality flying instruction delivered in accordance with national aviation authority requirements. Training locations include Australia, Belgium, Hong Kong, India, the Netherlands, Singapore, the United Kingdom and the United States.
