

## Trade Press Release

### **CAE and Bombardier grow Authorized Training Provider network with the addition of a simulator for Bombardier Global 5000 and Global 6000 aircraft training**

- **Keeping pace with Global 5000 and Global 6000 aircraft fleet growth**

**Las Vegas, Nevada, October 23, 2013** - CAE and Bombardier today announced at the annual Business Aviation Convention & Exhibition (NBAA 2013), that they are continuing to expand their Authorized Training Provider (ATP) network with an additional Level D full-flight simulator (FFS) for Bombardier Global 5000\* and Global 6000\* business jets equipped with the Bombardier Vision\* flight deck. This will be the second Global series simulator featuring the Bombardier Vision flight deck to be available in the CAE-Bombardier ATP network.

The CAE 7000 Series Level D FFS is expected to enter into service in one of CAE's training centres within its global network at the end of 2014. CAE and Bombardier will determine the final location of the new training device, based on the fleet distribution of the aircraft and the existing network of training devices. Currently, Bombardier also offers training for Global 5000 and Global 6000 business jets through CAE-built simulators located at Bombardier's Training Centers in Dallas, Texas and Montréal, Quebec.

"Providing our customers with training opportunities closer to their bases of operation is a key part of Bombardier's overall support strategy," said Leon Botteron, General Manager, Bombardier Aircraft Training. "Working hand-in-hand with CAE through its expansive network continues to benefit our growing fleet worldwide."

As an Authorized Training Provider of Bombardier business aircraft programs, CAE provides training using the Bombardier-approved syllabus and delivers high-quality training for Bombardier's complete line of business jets.

"We continue to serve as the Authorized Training Provider for Bombardier and currently have 13 simulators providing state-of-the-art training to Bombardier operators," said Nick Leontidis, CAE Group President, Civil Simulation Products, Training and Services. "We have one Bombardier Vision flight deck-equipped program ready to launch in December of this year in Amsterdam, The Netherlands for Global business jet operators. As the Global 5000 and Global 6000 order book continues to grow, we are excited to keep pace with the training demand by adding our second simulator to our ATP network fleet."

CAE offers business aviation training on more than 80 different aircraft platforms and operates over 60 full-flight simulators in a global network of eight locations, including: Amsterdam, Netherlands; São Paulo, Brazil; Shanghai, China; Dubai, UAE; London, UK; New York, Phoenix, and Dallas, USA.

#### **About Bombardier**

Bombardier is the world's only manufacturer of both planes and trains. Looking far ahead while delivering today, Bombardier is evolving mobility worldwide by answering the call for more efficient, sustainable and enjoyable transportation everywhere. Our vehicles, services and, most of all, our employees are what make us a global leader in transportation.

Bombardier is headquartered in Montréal, Canada. Our shares are traded on the Toronto Stock Exchange (BBD) and we are listed on the Dow Jones Sustainability World and North America Indexes. In the fiscal year ended December 31, 2012, we posted revenues of \$16.8 billion. **About CAE**

CAE (NYSE: CAE; TSX: CAE) is a global leader in modeling, simulation and training for civil aviation and defense. The company employs approximately 8,000 people at more than 100 sites and training locations in approximately 30 countries. CAE offers civil aviation, military, and helicopter training services in more than 45 locations worldwide and trains approximately 100,000 crewmembers yearly. In addition, the CAE Oxford Aviation Academy offers training to aspiring pilot cadets in 11 CAE-operated flight schools. CAE's business is diversified, ranging from the sale of simulation products to providing comprehensive services such as training and aviation services, integrated enterprise solutions, in-service support and crew sourcing. The company applies simulation expertise and operational experience to help customers enhance safety, improve efficiency, maintain readiness and solve challenging problems. CAE is leveraging its simulation capabilities in new markets such as healthcare and mining. [www.cae.com](http://www.cae.com) - Follow us on Twitter [@CAE\\_Inc](https://twitter.com/CAE_Inc)
