

Trade Press Release

CAE maintains its leadership in Business Aviation Upset Prevention & Recovery Training (UPRT)

- **CAE upgrades the instructor station of all its EASA approved full-flight simulators with optimized tools for effective UPRT**
- **Large business aircraft fleet operators in training with CAE include TAG Aviation, Luxaviation, Gama Aviation, Global Jet and Elit'Avia**

Geneva, Switzerland, May 22, 2017 (NYSE: CAE; TSX: CAE) – CAE announces today at the 2017 European Business Aviation Convention & Exhibition (EBACE) that it has completed the instructor station updates on all 36 of its EASA approved full-flight simulators in 5 different training locations with the necessary instructor tools for the next phase of Upset Prevention and Recovery Training (UPRT). CAE's full-flight simulators have been updated with instructor tools to monitor pilots' technique and ability to recover from upsets at high altitude within the aircraft's performance envelope.

"The customer feedback on our UPRT program has been tremendous," said Nick Leontidis, CAE's Group President, Civil Aviation Training Solutions. "With this next phase of recovery training, we felt it was important to give our instructors optimized tools to continue to provide the best training in the world to our customers. In fact, we received excellent reviews by some of our key large fleet operator customers, such as TAG Aviation, Luxaviation, Gama Aviation, Global Jet and Elit'Avia".

Last year at EBACE, CAE announced the launch of its Business Aviation Upset Prevention and Recovery Training program with the first phase focusing on prevention. This year marks the transition to the next phase for CAE with the addition of recovery training.

About CAE

CAE is a global leader in training for the civil aviation, defence and security, and healthcare markets. Backed by a 70-year record of industry firsts, we continue to help define global training standards with our innovative virtual-to-live training solutions to make flying safer, maintain defence force readiness and enhance patient safety. We have the broadest global presence in the industry, with 8,000 employees, 160 sites and training locations in over 35 countries. Each year, we train more than 120,000 civil and defence crewmembers and thousands of healthcare professionals worldwide. www.cae.com
