CAE optimizes training capacity for Bombardier CRJ and Q400 aircraft in North America

Cleveland, Ohio, USA, May 14, 2015 – (NYSE: CAE; TSX: CAE) – CAE today announced at the Regional Airline Association Annual Convention (RAA 2015), that in response to customer demand, it is relocating its training capacity for Bombardier CRJ200* regional jets from its training centre in Kuala Lumpur, Malaysia, to Phoenix, USA and training capacity for Bombardier Q400* turboprops from Montreal to Toronto, Canada.

“CAE is proud to continue to serve Bombardier operators with high-quality training solutions as we have for over 20 years,” said Nick Leontidis, CAE’s Group President, Civil Aviation Training Solutions. “We are pleased to make our training for CRJ* and Q400 aircraft more accessible to operators in North America where demand continues to grow.”

The CRJ200 aircraft full-flight simulator (FFS) will be qualified to the highest fidelity standards (Level D) by the FAA and will be ready for training in Phoenix this summer. CAE already offers training for CRJ200, CRJ700* and CRJ900* aircraft in Phoenix. CAE is Bombardier’s Authorized Training Provider for all CRJ aircraft flight training. CAE operates 11 CRJ aircraft full-flight simulators (FFSs) in six cities of its global training network: Charlotte, Minneapolis and Phoenix, in the U.S; Copenhagen, Denmark; Madrid, Spain; and Toronto, Canada.

The Q400 aircraft FFS will be qualified to Level D standards and will be ready for training in the fall of 2015 in CAE’s Toronto training centre. The centre offers training on six CAE-owned and operated full-flight simulators, including a Bombardier Dash 8*/Q-Series* 100/300, a Bombardier Q400, a Bombardier CRJ200/700/900 with a Next Generation avionics system, a Dornier 328 turboprop, and a Boeing B737-800 NG.

CAE offers commercial aviation training on more than 40 aircraft platforms and operates more than 240 full-flight simulators in its global network.

About CAE

CAE is a global leader in delivery of training for the civil aviation, defence and security, and healthcare markets. We design and integrate the industry’s most comprehensive training solutions, anchored by the knowledge and expertise of our 8,000 employees, our world-leading simulation technologies and a track record of service and technology innovation spanning seven decades. Our global presence is the broadest in the industry, with 160 sites and training locations in 35 countries, including our joint venture operations, and the world’s largest installed base of flight simulators. Each year, we train more than 120,000 civil and defence crewmembers, as well as thousands of healthcare professionals. www.cae.com
