

CAE signs new five-year training agreement with AirAsia in the Philippines, extending the use of the CAE Rise™ training system

Seoul, Korea, June 2, 2019 (NYSE: CAE; TSX: CAE) CAE announced today at the International Air Transport Association (IATA) Annual General Meeting (AGM) the signing of a new five-year training agreement for AirAsia's A320 pilots in the Philippines. The agreement extends the use of the CAE Rise™ training system to a third AirAsia affiliate. As part of this agreement, CAE will continue to provide initial training for the airline's pilots and will soon undertake recurrent training at CAE Clark – Philippine Academy for Aviation Training (PAAT) in the Philippines, starting in July 2019.

"AirAsia has embarked on a mission to digitise every aspect of their business and by implementing the CAE Rise™ training system they are better able to train and develop their pilots using real-time insights alongside a new level of training data analytics," said Nick Leontidis, CAE's Group President Civil Aviation Training Solutions. "Just recently AirAsia extended the use of the CAE Rise™ training system on the Airbus A330 platform and it's an honor to see them extend this training system on the Airbus A320 platform with a third airline affiliate."

The CAE Rise™ training system was launched in 2018 and is a great illustration of a technology innovation enabling the translation of simulator training data into valuable insights for instructors and training managers. This new training system arms instructors with the capability to provide objective assessments of pilot maneuvers in real-time and can equip training managers with a new level of insights into the performance of their entire pilot pool. CAE Rise™ augments instructors' capability to identify pilot proficiency gaps and evolve training programs to the most advanced aviation safety standards including AQP, ATQP and EBT methodologies.

About CAE

CAE is a global leader in training for the civil aviation, defence and security, and healthcare markets. Backed by a record of more than 70 years of industry firsts, we continue to help define global training standards with our innovative virtual-to-live training solutions to make flying safer, maintain defence force readiness and enhance patient safety. We have the broadest global presence in the industry, with over 10,000 employees, 160 sites and training locations in over 35 countries. Each year, we train more than 220,000 civil and defence crewmembers, including more than 135,000 pilots, and thousands of healthcare professionals worldwide. www.cae.com Follow us on Twitter: CAE_Inc
