

## Trade Press Release

### CAE and Bombardier to expand business aviation training network with Challenger 300 simulator in Montreal

- CAE-built full-flight simulator for Challenger 300 business aircraft to be operated by Bombardier at their Montreal, Canada facility

**Las Vegas, USA, October 9, 2011** – Bombardier and CAE today announced that they are continuing to expand worldwide training support for business aircraft customers with the addition of a Level D full-flight simulator (FFS) for Challenger 300 aircraft training.

The newly added CAE-built simulator will be located at Bombardier's training centre in Montréal, Canada, and will be deployed in the second half of 2012. This deployment will significantly boost OEM-backed Challenger 300 aircraft pilot training, currently offered at Bombardier's training centre in Dallas, Texas, where the company operates an existing FFS for Challenger 300 aircraft.

"Bombardier is committed to proactively increasing the number of training opportunities available to its business aircraft customers and ensuring they have access to services in locations that are convenient to their base of operations," said Éric Martel, President, Bombardier Customer Services & Specialized and Amphibious Aircraft.

"Training is all about safety and operational efficiency," said Jeff Roberts, Group President, Civil Simulation Products, Training and Services, CAE. "Our close relationship enables Bombardier and CAE to continuously improve the value of training for aviation professionals wherever they operate."

#### About CAE

CAE is a global leader in modeling, simulation and training for civil aviation and defense. The company employs more than 7,500 people at more than 100 sites and training locations in more than 20 countries. Through CAE's global network of 33 civil aviation, military and helicopter training centres, the company trains more than 80,000 crewmembers yearly. CAE's business is diversified, ranging from the sale of simulation products to providing comprehensive services such as training and aviation services, professional services and in-service support. The company aims to apply its simulation expertise and operational experience to help customers enhance safety, improve efficiency, maintain readiness and solve challenging problems. CAE is now leveraging its simulation capabilities in new markets such as healthcare and mining. [www.cae.com](http://www.cae.com)

#### Bombardier Customer Services

Bombardier Customer Services is a leader in aftermarket service and support for Bombardier aircraft and has consistently raised the bar to support its growing customer base. Bombardier has nearly 190 field service and support staff deployed internationally—more than any other Original Equipment Manufacturer (OEM). Bombardier is also the only jet manufacturer providing wholly owned pilot and technical training on its aircraft.

#### About Bombardier

A world-leading manufacturer of innovative transportation solutions, from commercial aircraft and business jets to rail transportation equipment, systems and services, Bombardier Inc. is a global corporation headquartered in Canada. Its revenues for the fiscal year ended January 31, 2011, were \$17.7 billion, and its shares are traded on the Toronto Stock Exchange (BBD). Bombardier is listed as an index component to the Dow Jones Sustainability World and North America indexes.
