Masterjet Cessna and Dassault pilots to train exclusively at CAE

Geneva, Switzerland, May 15, 2012 – (NYSE: CAE; TSX: CAE) – CAE today announced at the European Business Aviation Convention and Exposition (EBACE) that it has signed a long-term agreement with Masterjet to train pilots exclusively at Emirates-CAE Flight Training in Dubai, UAE, as well as CAE training centres near London, United Kingdom; New York City and Dallas, United States, for Cessna CJ3, Dassault Falcon 7X, 900 and 900EX EASy aircraft types.

Masterjet (Paris, France) offers private jet charter, aircraft trading, aircraft management, auditing and consulting.

"CAE meets the very high standards we have for Masterjet with regard to meticulous safety and application of advanced technology to the training programme," said Philip G. Queffelec, President of Masterjet. "The flight training our pilots receive will help us to continue to provide exceptional service to our clients."

"Masterjet's passion for safety and customer service is well respected in the business aviation community," said Camille Mariamo, CAE Regional Leader, Middle East and India. "We are very pleased that they have committed to CAE as their long-term exclusive training provider."

About Emirates-CAE Flight Training

ECFT is jointly operated by the Emirates Group and CAE and is located close to Dubai International Airport. Approved by EASA / JAA, the FAA and the UAE GCAA, the facility offers full-flight simulator training to aircraft operators in the Middle East, Europe, Africa and Asia.

About CAE

CAE is a global leader in modeling, simulation and training for civil aviation and defence. The company employs more than 7,500 people at more than 100 sites and training locations in over 25 countries. CAE offers civil aviation, military and helicopter training services in 40 locations worldwide and the company trains more than 80,000 crewmembers yearly. CAE's business is diversified, ranging from the sale of simulation products to providing comprehensive services such as training and aviation services, professional services and in-service support. The company applies its simulation expertise and operational experience to help customers enhance safety, improve efficiency, maintain readiness and solve challenging problems. CAE is now leveraging its simulation capabilities in new markets such as healthcare and mining. www.cae.com
