Two CAE-built CC-130J simulators for RCAF certified to Level D

Montreal, Canada, March 12, 2013 – (NYSE: CAE; TSX: CAE) – Two CC-130J full-mission simulators built by CAE for the Royal Canadian Air Force (RCAF) have been certified by Transport Canada to Level D, the highest qualification for flight simulators.

The two CC-130J simulators are located at the new Air Mobility Training Centre (AMTC) at Canadian Forces Base Trenton in Canada.

“The Royal Canadian Air Force fully understands the value of simulation-based training, both for the cost benefits as well as the enhanced training and mission rehearsal capabilities it delivers,” said Pietro D’Ulisse, CAE’s Vice President and Military Business Leader - Canada. “By formally certifying its two CC-130J simulators to Level D, the Department of National Defence will receive the highest fidelity training systems for its forces.”

CAE is the prime contractor for the Operational Training Systems Provider (OTSP) program, under which the company is providing a comprehensive aircrew training capability for Canada’s CC-130J and CH-147F aircraft. At the new AMTC, CAE and its pan-Canadian team of subcontractors are delivering a full suite of CC-130J academic and synthetic training systems to be used for qualification, conversion, refresher, and mission rehearsal training. CAE will also provide 20 years of in-service support for the AMTC in Trenton.

CAE is a global leader in modelling, simulation and training for civil aviation and defence. The company employs approximately 8,000 people at more than 100 sites and training locations in approximately 30 countries. CAE offers civil aviation, military and helicopter training services in more than 45 locations worldwide and trains approximately 100,000 crew members yearly. In addition, the CAE Oxford Aviation Academy offers training to aspiring pilot cadets in 11 CAE-operated flight schools. CAE’s business is diversified, ranging from the sale of simulation products to providing comprehensive services such as training and aviation services, integrated enterprise solutions, in-service support and crew sourcing. The company applies simulation expertise and operational experience to help customers enhance safety, improve efficiency, maintain readiness and solve challenging problems. CAE is now leveraging its simulation capabilities in new markets such as healthcare and mining. More information can be found at www.cae.com.
