

CAE to develop Joint Multinational Simulation Centre for Gulf Cooperation Council customer

- CAE to provide comprehensive constructive simulation solution for command and staff training -

Montreal, Canada, May 2, 2018 – (NYSE: CAE; TSX: CAE) – CAE today announced it was awarded a contract from a Gulf Cooperation Council (GCC) customer to develop a Joint Multinational Simulation Centre.

As part of the contract, CAE will be providing the GlobalSim constructive simulation system. GlobalSim combines the Joint Theater-Level Simulation (JTLS) from Rolands & Associates with CAE's GESI as an integrated constructive simulation for command and staff training.

At the Joint Multinational Simulation Centre, commanders and operators from the Army, Air Force, Navy and Staff Colleges will use GlobalSim to conduct military training from the tactical to strategic level of operations. The constructive simulation system will be used to prepare commanders, officers and staff to make timely, informed and intelligent decisions across the full spectrum of operations. The Joint Multinational Simulation Centre will be designed to be used for military training between allied nations.

"We are very pleased to be selected to lead the development of the Joint Multinational Simulation Centre," said Ian Bell, CAE's Vice President and General Manager, Middle East/Asia-Pacific. "The combination of our GESI system with JTLS offers the most comprehensive constructive simulation system available for command and staff training and decision support."

The combination of R&A's JTLS and CAE's GESI brings together a theater-level constructive simulation (JTLS) with a high-resolution, entity-level constructive simulation (GESI) to create a comprehensive federation that offers command leadership a single, realistic, multi-resolution view of the complete operational environment.

About CAE

CAE's Defence & Security business unit focuses on helping prepare our customers to develop and maintain the highest levels of mission readiness. We are a world-class training systems integrator offering a comprehensive portfolio of training centres, training services and simulation products across the air, land, sea and public safety market segments. We serve our global defence and security customers through regional operations in Canada; the United States/Latin America; Europe/Africa; and Asia-Pacific/Middle East, all of which leverage the full breadth of CAE's capabilities, technologies and solutions.

CAE is a global leader in training for the civil aviation, defence and security, and healthcare markets. Backed by a 70-year record of industry firsts, we continue to help define global training standards with our innovative virtual-to-live training solutions to make flying safer, maintain defence force readiness and enhance patient safety. We have the broadest global presence in the industry, with over 8,500 employees, 160 sites and training locations in over 35 countries. Each year, we train more than 120,000 civil and defence crewmembers and thousands of healthcare professionals worldwide. www.cae.com
