Our due diligence procedures aim to:

- Monitor potential risks in our business and supply chains
- Reduce the risk of slavery and human trafficking occurring in our business and supply chains.

Risk and compliance

The Company has evaluated the nature and extent of its exposure to the risk of slavery and human trafficking occurring in its UK supply chain through

- Evaluating the slavery and human trafficking risks of each new supplier.
- Reviewing on a regular basis all aspects of the supply chain based on supply chain mapping.

We do not consider that we operate in a high-risk environment because the majority of our supply chain is based in Canada and the UK and is involved in highly regulated and regularly audited services pertaining to flight simulation.

We do not tolerate slavery and human trafficking in our supply chains. Where there is evidence of failure to comply with our policies and procedures by any of our suppliers, we will require that supplier to remedy the non-compliance.

Effectiveness

Every supplier that CAE uses is required to complete a "New supplier Questionnaire" which includes a declaration by the potential supplier that they are compliant in such areas as ISO/ Health and Safety and Corporate Social Responsibility

The Company has a supplier code of conduct that is referenced as part of the Terms and Conditions when a supplier agrees to work with CAE. This Code of conduct covers areas such as:
