

## Gene Colabatistto

Group President,  
Defence & Security

Gene Colabatistto was appointed Group President of CAE's Defence & Security Group in June 2012. The Defence & Security business represents approximately half of CAE's total revenues.

Mr. Colabatistto has more than 25 years experience in the global defence industry, and has held leadership positions in both the military and the private sector. Before joining CAE, he was a Senior Vice President in the Intelligence, Surveillance and Reconnaissance (ISR) Group at Science Applications International Corporation (SAIC) - a leading provider of scientific, engineering, systems integration and technical services. He was responsible for the growth of their ISR and Cybersecurity businesses.

Prior to joining SAIC, Mr. Colabatistto was President of Olive Group North America, a global, integrated security corporation. Before that Mr. Colabatistto was President of Space Imaging Solutions, the leading provider of satellite imagery products and services. He was also President of SPOT Image Corporation, the North American subsidiary of

the world's first commercial provider of satellite imagery. Previously, Mr. Colabatistto spent almost 10 years with Veridian Corporation, responsible for the growth of its engineering products, imagery, and signals intelligence business. Mr. Colabatistto also served in the United States Marine Corps and was responsible for intelligence information systems and acted as the service's representative for satellite and airborne reconnaissance during Desert Storm.

Mr. Colabatistto has an M.S. in Electrical Engineering from George Washington University, and a B.S. in Aerospace Engineering and an M.S. in Systems Management from the University of Southern California (USC). He is a member of the Intelligence and National Security Alliance (INSA), Armed Forces Communications-Electronics Association (AFCEA), National Defense Intelligence Association (NDIA), United States Geospatial Intelligence Foundation (USGIF), American Institute of Aeronautics and Astronautics (AIAA), and the Institute of Electrical and Electronics Engineers (IEEE).
