

## CAE to deploy its first Bombardier Global 6500 full-flight simulator in the Middle East

**Dubai, United Arab Emirates, November 15, 2021** (NYSE: CAE; TSX: CAE) – CAE announced today at the 2021 Dubai Airshow that it is expanding its pilot training capacity in the Middle East. Through its Authorized Training Provider (ATP) agreement with Bombardier, CAE will deploy a new Bombardier *Global 6500*\* full-flight simulator (FFS) to the Emirates-CAE Flight Training Centre (ECFT) in Dubai.

“While travellers help fuel the recovery of the industry, as the training partner of choice, we place great importance on supporting the increasing training needs of business aviation pilots and operators across the globe,” said Nick Leontidis, CAE’s Group President, Civil Aviation Training Solutions. “A first outside of America, the brand new CAE *Global 6500*\* FFS will heighten the pilot training experience in the Middle East and help strengthen business aviation pilots’ skills.”

“As aviation rebuilds, we continue to provide the latest training experience in the region and we are proud to add Bombardier’s new *Global 6500* aircraft in the Middle East with our training partner CAE,” said Steve Allen, Executive Vice President at Emirates Group. “This addition will better serve the operators in the region with CAE’s cutting edge technology.”

“We are proud to collaborate with our training partner CAE. The Bombardier *Global 6500* business jet is the newest member of the *Global* family, offering additional range, a smooth ride, and a second-to-none cabin experience — all built from the same winning DNA that sets *Global* business jets apart,” said Anthony Cox, Vice President, Customer Support, Bombardier. “Just as our customers enjoy high reliability from their *Global 6500* aircraft, they can continue to expect a world-class training experience, and we are happy to unite them with CAE’s top-of-the-line pilot training know-how and advanced technology in the Middle East.”

The brand-new CAE Bombardier *Global 6500*\* business jet FFS will be ready for training in 2023 at the ECFT centre in Al Garhoud, Dubai. This will be CAE’s second Bombardier *Global 6500*\* FFS as part of its current ATP agreement with Bombardier. CAE already offers *Global 6500*\* aircraft training at CAE’s Montreal training centre.

## **About CAE**

CAE is a high technology company, at the leading edge of digital immersion, providing solutions to make the world a safer place. Backed by a record of more than 70 years of industry firsts, we continue to reimagine the customer experience and revolutionize training and operational support solutions in civil aviation, defence and security, and healthcare. We are the partner of choice to customers worldwide who operate in complex, high-stakes and largely regulated environments, where successful outcomes are critical. As testament to our customers' ongoing needs for our solutions, over 60 percent of CAE's revenue is recurring in nature. We have the broadest global presence in our industry, with more than 11,000 employees, 180 sites, and training locations in over 35 countries. [www.cae.com](http://www.cae.com)
