CAE to acquire Sabre’s AirCentre airline operations portfolio to significantly expand its position in flight and crew management and optimization solutions

- Establishes CAE as a technology leader in digital flight and crew operations
- Transaction aligns with Sabre’s strategic vision to create a new marketplace for personalized travel

**Montreal, Quebec, Canada and Southlake, Texas, USA, October 28, 2021** – CAE (NYSE: CAE; TSX: CAE) and Sabre Corporation (NASDAQ: SABR) announced today an agreement for CAE to acquire Sabre’s AirCentre airline operations portfolio (AirCentre) – a highly valuable suite of flight and crew management and optimization solutions. The agreement, which is valued at US$ 392.5 million excluding post-closing adjustments, includes the Sabre AirCentre product portfolio, related technology and intellectual property as well as the transfer of AirCentre’s highly talented workforce. AirCentre generated approximately US$150 million revenue in the 2019 calendar year (pre-pandemic), and approximately US$55 million EBITDA\(^1\) for the same period. The closing of the transaction is expected in the first quarter of calendar 2022 and is subject to customary conditions and regulatory approvals.

The acquisition will further expand CAE’s reach across its broad customer base beyond pilot training and establish the company as a technology leader in the growing marketplace for industry-leading, digitally-enabled flight and crew operations solutions. CAE expects that the transaction will be mid-single-digit percentage EPS\(^2\) accretive, and even higher free cash flow\(^3\) accretive, for CAE within the first year post-closing.

“Sabre’s AirCentre business is highly valued by many of the world’s leading airlines, nearly all of whom are customers of CAE today. This acquisition will significantly expand CAE’s capabilities across a large airline customer base and allows us to deliver on our objective to help our civil aviation customers operate their businesses with the highest levels of efficiency and precision,” said Marc Parent, CAE’s President and CEO. “We are committed to investing and innovating in digital flight and crew operations, an expansion area for our business. The acquisition will also enhance CAE’s capability set with the addition of 500 talented employees, the majority of which are personnel with software development and digital expertise. We look forward to welcoming AirCentre employees from around the globe and are excited to work with our new colleagues to accelerate the innovation of AirCentre’s products as well as CAE’s ongoing technological and digital transformation. This transaction will mark the ninth accretive acquisition for CAE since the COVID-19 pandemic began,
further effecting the company’s intent to emerge from the pandemic larger, more resilient, and more profitable.”

For Sabre, the divestiture demonstrates the company’s commitment to its previously-announced strategic initiatives and is another step toward fulfilling its vision to create a new marketplace for personalized travel. Through this transaction and other strategic changes executed over the past year, Sabre will be better positioned for incremental revenue opportunities going forward.

“This divestiture is an important strategic move that will allow us to focus on our forward-looking plans and on accelerating our growth as we continue to transform our business and build on our strong momentum over the past three years,” said Sean Menke, Sabre President and CEO. “By selling AirCentre to a company committed to growth in the area of airline operations, we can create more value for Sabre, its shareholders and AirCentre customers while we remain laser-focused on the areas of our business that will help drive revenue opportunities for Sabre and our customers – now and in the future.”

Uniting airlines and crew in a single, interconnected and growing digital ecosystem

Over the past three years, CAE has been steadily unifying the digital flight operations ecosystem with the goal of delivering a holistic suite of solutions designed to improve operations and enhance the flight and crew experience.

The acquisitions of Merlot and RB Group in December 2020 and April 2021 marked milestones in CAE’s journey to pioneer the development of a digital flight operations ecosystem. And in July 2021 CAE announced Project Resilience, a multi-year innovation program to develop the technologies of tomorrow, including digitally immersive solutions leveraging data and artificial intelligence in civil aviation. For more information about CAE’s current digital crew management solutions, visit these pages.

Caution concerning forward-looking statements with respect to CAE

This press release includes forward-looking statements about the anticipated benefits of the acquisition by CAE of Sabre’s AirCentre airline operations portfolio (the Acquisition), CAE’s access to capital resources, and CAE’s activities, events and developments that CAE expects to or anticipates may occur in the future including, for example, statements about CAE’s vision, strategies, market trends and outlook, future revenues, capital spending, expansions and new initiatives, financial obligations and expected sales. Forward-looking statements normally contain words like “believe”, “expect”, “anticipate”, “plan”, “intend”, “continue”, “estimate”, “may”, “will”, “should”, “strategy”, “future” and similar expressions. By their nature, forward looking statements require CAE to make assumptions and are subject to inherent risks and uncertainties associated with CAE’s business which may cause actual results in future periods to differ materially from results indicated in forward-looking statements. While these statements are based on management’s expectations and assumptions regarding historical trends, current conditions and expected future developments, as well as other factors that CAE believes are reasonable and appropriate in the circumstances, readers are cautioned not to place undue reliance on these forward-looking statements as there is a risk that they may not be accurate.

Important risks that could cause such differences include, but are not limited to, the failure to gain access to expected capital resources within anticipated timeframes or at all, risks relating to the Acquisition, such as all or part of the intended benefits therefrom not being realized or unanticipated integration-related issues, costs or delays, risks relating to the COVID-19 pandemic such as health and safety, reduction and suspension of operations, global economic conditions, diversions of management attention, heightened IT risks, liquidity risks and credit risks, risks relating to the industry such as competition, business development and awarding of new contracts, level and timing of defence spending, government-funded defence and security programs, constraints within the civil aviation industry, regulatory matters, natural or other disasters, environmental laws and regulations, climate change, risks relating to CAE such as evolving standards and technology innovation, CAE’s ability to penetrate new markets, R&D activities, fixed-price and long term supply contracts, strategic partnerships and long-term contracts, procurement and original equipment manufacturer (OEM) leverage, product integration and program management, protection of CAE’s intellectual property and brand, third-party intellectual property, loss of key personnel, labour relations, liability risks that may not be covered by indemnity or insurance, warranty or other product-related claims, integration of acquired businesses through mergers, acquisitions, joint ventures, strategic alliances or divestitures, reputational risk, U.S. foreign ownership, control or influence mitigation measures, length of sales cycle, seasonality, continued returns to shareholders, information technology and cybersecurity, CAE’s reliance on technology and third party providers, data privacy, and risks relating to the market such as foreign exchange, availability of capital, credit risk, pension plan funding, doing business in foreign countries, geopolitical uncertainty, anti-corruption laws and taxation matters. Additionally, differences could arise because of events announced or completed after the date of this press release. More information about the risks and
uncertainties affecting CAE’s business can be found in the Management’s Discussion & Analysis for the year ended March 31, 2021 and the Management’s Discussion & Analysis for the quarter ended June 30, 2021. Any one or more of the factors described above and elsewhere in this press release, and in the documents referenced herein, may be exacerbated by the continuing COVID-19 pandemic and may have a more negative impact on CAE’s business, results of operations and financial condition. Accordingly, readers are cautioned that any of the disclosed risks could have a material adverse effect on CAE’s forward-looking statements. Readers are also cautioned that the risks described above and elsewhere in this press release, and in the documents referenced herein, are not necessarily the only ones CAE faces; additional risks and uncertainties that are presently unknown to CAE or that CAE may currently deem immaterial may adversely affect CAE’s business.

Pending the Acquisition closing, Sabre’s AirCentre airline operations portfolio is a fully integrated business unit of Sabre, and separate financial statements historically have not been prepared for the Sabre AirCentre airline operations portfolio. Consequently, the financial information of the Sabre AirCentre airline operations portfolio included in this document has been derived from the consolidated financial statements and historical accounting records of Sabre and reflects certain significant assumptions, judgments and allocations made by Sabre. The financial position, net income and cash flows of the Sabre AirCentre airline operations portfolio may not be representative of the financial performance if the Sabre AirCentre airline operations portfolio had been a stand-alone entity or operated independently of Sabre. As a result, the historical financial information or expected future financial results of the Sabre AirCentre airline operations portfolio may not be a reliable indicator of future results.

Except as required by law, CAE disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise. The forward-looking information and statements contained in this press release are expressly qualified by this cautionary statement.

Material Assumptions
The forward-looking statements set out in this press release are based on certain assumptions including, without limitation: access to expected capital resources within anticipated timeframes, the integration and the realization of the anticipated benefits and synergies of the Acquisition in the timeframe anticipated, the anticipated negative impacts of the COVID-19 pandemic on CAE’s businesses, operating results, cash flows and/or financial condition, including the intended effect of mitigation measures implemented as a result of the COVID-19 pandemic, CAE’s available liquidity from cash and cash equivalents, undrawn amounts on CAE’s revolving credit facilities, the balance available under CAE’s receivable purchase program, CAE’s cash flows from operations and continued access to debt funding will be sufficient to meet financial requirements in the foreseeable future; and no material financial, operational or competitive consequences of changes in regulations affecting CAE’s business. For additional information, including with respect to other assumptions underlying the forward-looking statements made in this press release, refer to the applicable reportable segment in the Management’s Discussion & Analysis for the year ended March 31, 2021 and the Management’s Discussion & Analysis for the quarter ended
June 30, 2021. Given the impact of the changing circumstances surrounding the COVID-19 pandemic and the related response from CAE, governments, regulatory authorities, businesses and customers, there is inherently more uncertainty associated with CAE’s assumptions. Accordingly, the assumptions outlined in this press release, and in the documents referenced herein, and, consequently, the forward-looking statements based on such assumptions, may turn out to be inaccurate.

Non-GAAP and other financial measures
This press release includes non-GAAP and other financial measures. Non-GAAP measures are useful supplemental information but do not have a standardized meaning according to GAAP and therefore may not be comparable to similar measures presented by other issuers. These measures should not be confused with, or used as an alternative for, performance measures calculated according to GAAP. They should also not be used to compare with similar measures from other companies. Management believes that providing certain non-GAAP measures provides users with a better understanding of our results and trends and provides additional information on our financial and operating performance.

(1) EBITDA
EBITDA comprises earnings before income taxes, finance expense — net, depreciation and amortization.

(2) EPS
CAE calculates earnings per share by taking the diluted earnings per share from continuing operations attributable to equity holders of the CAE and dividing that by the average number of diluted shares.

(3) Free cash flow
CAE calculates free cash flow by taking the net cash generated by its continuing operating activities, subtracting maintenance capital expenditures, investment in other assets not related to growth and dividends paid and adding proceeds from the disposal of property, plant and equipment, dividends received from equity accounted investees and proceeds, net of payments, from equity accounted investees.

Caution concerning forward-looking statements with respect to Sabre

Certain statements in this press release are forward-looking statements about trends, future events, uncertainties and Sabre’s plans and expectations of what may happen in the future. Any statements that are not historical or current facts are forward-looking statements. In many cases, you can identify forward-looking statements by terms such as “expect,” “future,” “believe,” “plan,” “guidance,” “outlook,” “anticipate,” “will,” “forecast,” “continue,” “strategy,” “estimate,” “project,” “may,” “should,” “would,” “intend,” “potential,” or the negative of these terms or other comparable terminology. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause Sabre’s actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. The
potential risks and uncertainties include, among others, the closing, integration and effects of the acquisition described in this release, the financial performance of the business to be acquired, the severity, extent and duration of the global COVID-19 pandemic, including any variants, and its impact on Sabre’s business and results of operations, financial condition and credit ratings, as well as on the travel industry and consumer spending more broadly, the actions taken to contain the disease or treat its impact, including travel restrictions, the effectiveness and rate of vaccinations, the effect of remote working arrangements on Sabre’s operations and the speed and extent of the recovery across the broader travel ecosystem, dependency on transaction volumes in the global travel industry, particularly air travel transaction volumes, including the impact of changes in these transaction volumes from airlines’ insolvency, suspension of service or aircraft groundings, the effect of cost savings initiatives, the timing, implementation and effects of the technology investment and other strategic initiatives, the completion and effects of travel platforms, travel suppliers’ usage of alternative distribution models, exposure to pricing pressure in the Travel Solutions business, changes affecting travel supplier customers, maintenance of the integrity of Sabre’s systems and infrastructure and the effect of any security breaches, failure to adapt to technological advancements, competition in the travel distribution market and solutions markets, implementation of software solutions, reliance on third parties to provide information technology services and the effects of these services, the execution, implementation and effects of new, amended or renewed agreements and strategic partnerships, including anticipated savings, dependence on establishing, maintaining and renewing contracts with customers and other counterparties and collecting amounts due to Sabre under these agreements, dependence on relationships with travel buyers, Sabre’s collection, processing, storage, use and transmission of personal data and risks associated with PCI compliance, Sabre’s ability to recruit, train and retain employees, including Sabre’s key executive officers and technical employees, the financial and business results and effects of acquisitions and divestitures, the effects of any litigation and regulatory reviews and investigations, adverse global and regional economic and political conditions, including, but not limited to, economic conditions in countries or regions with traditionally high levels of exports to China or that have commodities-based economies and the effect of "Brexit", risks arising from global operations, reliance on the value of Sabre’s brands, failure to comply with regulations, use of third-party distributor partners, the effects of the implementation of new accounting standards and tax-related matters. More information about potential risks and uncertainties that could affect Sabre’s business and results of operations is included in the "Risk Factors" and “Forward-Looking Statements” sections in Sabre’s Quarterly Report on Form 10-Q filed with the SEC on August 3, 2021, in Sabre’s Annual Report on Form 10-K filed with the SEC on February 25, 2021 and in Sabre’s other filings with the SEC. Although Sabre believes that the expectations reflected in the forward-looking statements are reasonable, Sabre cannot guarantee future events, outlook, guidance, results, actions, levels of activity, performance or achievements. Readers are cautioned not to place undue reliance on these forward-looking statements. Unless required by law, Sabre undertakes no obligation to publicly update or revise any forward-looking statements to reflect circumstances or events after the date they are made.
