Engineering Services

CAMO

CAE Parc Aviation is an EASA approved Continuing Airworthiness Management Organisation, focused on the provision of independent CAMO services for large commercial aircraft transitioning between lease operators.

Working with leasing companies, airlines and aviation authorities, we seamlessly manage airworthiness requirements and aircraft transitions to keep our clients' aircraft in compliance.

We hold EASA, BCAA, IOM, Guernsey and Cayman Island approvals.

Part 21 Design

Our highly experienced design team have the capability to produce a full suite of multi-disciplined aircraft modifications (interiors, avionics, structures) from Minor to Major (STC). Modifications can be provided as EASA, FAA and UAE approved engineering packages on all commercial aircraft platforms.

We provide turnkey solutions for aircraft transition events and interior reconfigurations including full project and materials management on a global scale for leasing companies and airlines.

Borescope

CAE Parc Aviation holds EASA Part 145 and FAA approvals to perform engine borescope inspections. Our highly experienced, regionally based teams can carry out inspections on a worldwide basis.

Using state of the art equipment, we provide a full video borescope with comprehensive reporting.

We are approved to issue EASA/FAA dual release certificates and carry out on-wing and off-wing inspections on a scheduled or an AOG basis globally.

EASA Approval: IE.145.072

FAA Approval: 7EPY673C

Aircraft Leasing Support

Flight Solutions & Support Services

CAE Parc Aviation provide bespoke flight solutions with fully managed global support to leasing companies, airlines, financial institutions, OEMs and operators.

We specialise in:

- Ferry Flights & Aircraft Delivery Flights
- Demonstration & Technical Acceptance Flights
- Post-maintenance Check Flights
- Observation Flights (Demonstration & Acceptance)
- Aviation Support Solutions

Our dedicated and experienced team operates 24/7, providing tailored solutions for our clients' individual needs.

Technical Consultants

With a global pool of highly experienced technical consultants, CAE Parc Aviation delivers the expertise and services required to cover all aspects of our clients' needs including:

- Pre-production Inspections
- Mid-term & Annual Audits
- Pre-purchase Inspections
- Lease Transition & Maintenance Events
- Engine Shop Visits
- Field Service & Entry Into Service Support

Remote Records Services

Our specialised remote records service delivers clients a cost effective, diligent review of their records and provides a detailed Open Item List on a bespoke digital platform (CAE PARAMS). This program allows real-time review and closure of records discrepancies.

CAE Parc Aviation's central records team have detailed experience in aircraft records and transition events, working across all aircraft and engine types.
